EXPERIENCE

Digital Transformation & Systems Coordinator | Sterling Securities | Verona, NJ September 2023 – Present

- Led digital transformation initiatives by identifying inefficiencies and implementing technology-driven solutions
 - Developed and maintained data tracking systems in Excel and Word for operations, finance, and onboarding
 - Managed personnel files and registered employee data in ADP, WMS, and NJ State Police portal
 - Conducted an internal audit of SORA certification records by cross-referencing employee folders, WMS, and the NJ State Police portal to identify inactive employees still marked as active, ensuring data integrity and compliance
 - Logged deposits in WMS and matched them to invoices for accurate financial tracking
 - Created a Google Sites employee portal to centralize access to HR forms (ID card requests, SORA updates, uniform requests, pay schedules), reducing back-and-forth with HR
 - Built and maintained company website on Squarespace to support job application intake and external communications
 - Managed application intake via Google Sheets and conducted mass email outreach to candidates for interview coordination, supporting the talent pipeline and improving recruitment communication
 - Built a uniform tracking system with Google Sheets & AppSheet, including QR-based checkout and low-stock alerts emailed via Apps Script
 - Provided IT support across hardware setup, software installation, printer configuration, mobile device deployment, and end-user troubleshooting.
-
